

Partners in Health,

Welcome to the Jackson County Healthy Communities Coalition! We are excited you're interested in our work and invite your participation in making Jackson County a healthier place to live. The coalition usually meets on the fourth Thursday, every other month, at 8:30 a.m. in the back conference room of the Carbondale Township Office located at 217 E. Main St., Carbondale, IL 62901 (enter parking lot from Monroe St., one block south of Main St., and enter through the green door in the back of the building). Meeting dates, agency presenters, minutes and additional information about coalition activities can be found at:

<http://www.hsidn.org/jackson-county-healthy-communities-coalition.html>

Each community partner is welcome to network at the larger community meeting, but is also encouraged to become a valued member on one of our action teams. Whether you are interested in attending to network, to keep current on health-related events, or to join a specific action team, we are happy you are at the table! Please check with the action team leaders (contact list located at the link above) to be sure of the location/date.

If you have additional questions or concerns you can check our website for information or contact Greg Smith by email greg.smith@sih.net or phone (618) 457-5200 ext. 67837.

Sincerely,

JCHCC Steering Committee
